**Price Change Announcement****Revised Letter - Please destroy original mailing dated November 25, 1997**

Dear Smith Drug Company Pharmaceutical Buyer:

Roxane Laboratories, Inc. is announcing a Wholesale Acquisition Cost (WAC) adjustment on several of our products to keep them priced appropriately, relative to the current market conditions. The WAC will change effective December 1, 1997, and impact the following products as listed below and in the attached worksheet:

NDC#	Product	Description	Size	Current WAC	New WAC
0054-					
8402-11	Ipratropium Bromide	0.02% 2.5mL UDV	25	\$25.50	\$20.50
8402-13	Ipratropium Bromide	0.02% 2.5mL UDV	30	\$30.60	\$24.60
4853-21	Ranitidine	150mg Tablet	60	\$49.60	\$29.76
4853-29	Ranitidine	150mg Tablet	500	\$392.68	\$235.61
4854-25	Ranitidine	300mg Tablet	100	\$142.60	\$85.56

Roxane will also extend this new pricing to your existing warehouse inventory, provided you complete the required documentation, and a worksheet is attached to assist in expediting the process.

- Please complete the worksheet by filling in the green highlighted areas with your warehouse inventory quantities as of November 30, 1997. Then return the worksheet, together with appropriate documentation supporting the reported inventory levels to us within 45 days. Requests for shelf stock adjustment or supporting documentation received after 45 days from the date of this notification will not be honored.
- The shelf stock adjustment will be calculated based on the difference between your current net price and the new net price. (Net price is the invoice price less rebates.) Cash terms are excluded from the calculation. Product ordered, but not yet shipped will automatically be charged at the new WAC price. Product which has been shipped and billed at the old price, but has not yet been received will be eligible for shelf stock adjustment. Only product purchased directly from Roxane Laboratories will be adjusted.

Please contact your Roxane Sales Representative if you have further questions.

Sincerely,

Richard A. Feldman, R.Ph.
